

# Cannonball

Kiesza

I keep falling  
I keep falling for you  
Like the rain fall  
Like a cannonball I keep falling  
I keep falling for you  
Like the rain fall  
Like a cannonball I was trying to take your heart  
Keep it in a cardboard box  
So when it gets hard  
You'll never be far  
And your love won't be lost  
As the bridges fall apart  
I still find a way to cross  
And even if you are lost among the stars  
Your love won't go off  
For me me me me it's endless  
But I need need need more of this  
Can't turn away, feel it push me And I keep falling  
I keep falling for you  
Like the rain fall  
Like a cannonball I keep falling  
I keep falling for you  
Like the rain fall  
Like a cannonball Like a cannonball I can feel you take my love  
And tangle it above the ground  
And if the strings are cut  
Nothing holds me up  
Nothing takes me down  
For me me me me it's endless  
But I need need need more of this  
Can't turn away, feel it push me And I keep falling  
I keep falling for you  
Like the rain fall  
Like a cannonball I keep falling  
I keep falling for you  
Like the rain fall  
Like a cannonball Like a cannonball When I try to fall for from your candlelight  
I get lost in your maybe maybe  
I'm just falling  
When I try to hide from your love I can't deny with maybe maybe  
It's just my calling  
But and I keep falling

I keep falling for you  
Like the rain fall  
Like a cannonball  
I keep falling  
I keep falling for you  
Like the rain fall  
Like a cannonball  
Like the rain fall  
Like a cannonball  
Like the rain fall  
Like a cannonball
