Where the Boat Leaves From

Zac Brown Band

There's a place, where the boat leaves from

It takes away all your big problems

You got worries you can drop them in the blue ocean

But you gotta get away to where the boat leaves from

Take one part sand, and one part sea, one part shade of a big palm tree

The drinks they're cold and the ladies are hot

And I know this is the place for meSo get away to where the boat leaves from

It takes away all of your big problems

You got worries you can drop them in the blue ocean

But you gotta get away to where the boat leaves fromSee the problem is that you're down there

And there's a perfectly good island somewhere

Where a ride that floats and don't grab your coats

You won't need them where we are going
So get away to where the boat leaves from
It takes away all of your big problems

You got worries you can drop them in the blue ocean But you gotta get away to where the boat leaves fromPick me up

Out on a boat that is huge
Pick me up
I don't know how to do
Pick me upPut me down
Down on the sand where its cool
Put me down
When I fall off my stool

Put me down
I'll just sleep there til morning comes around
With sunshine and ladies and pina colodas
and Bob Marley songs that are playing

There's a sound in my ear that I want you to hear Soft tropical lips that are sayingGet away to where the boat leaves from It takes away all of your big problems

You got worries you can drop them in the blue ocean But you gotta get away to where the boat leaves from Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
