

Love the Lie

Call Me Loop

[Verse 1]

Wake up in the space in my bed
One of the things that you left at the end
Plus a hundred things unsaid, but whatever
They all say, "You gotta give it time"
But I'm not sitting 'round wasting mine
Might be a bit out of my mind, whatever[Pre-Chorus]

Good vibes only today
No cares, I'm running away
Can't nobody get a hold of me
Good vibes only from now
Won't let nothing bring me down
Can't nobody get a hold of me, hey

[Chorus]

Party from one, two, three, four, five
I won't be coming home tonight
Got satisfaction in my sights, woah
Party from one, two, three, four, five
Body on body coming alive
Rum in my hand all night, night, night
I'mma live the lie, love the lie (yeah)
I'mma live the lie, love the lie[Verse 2]
Wake up and there's pain in my head
Memories that are full of regret
But I know I'll do it again 'cause whatever
Yeah, whatever

[Pre-Chorus]

Good vibes only today
No cares, I'm running away
Can't nobody get a hold of me
Good vibes only from now
Won't let nothing bring me down
Can't nobody get a hold of me[Chorus]

Party from one, two, three, four, five
I won't be coming home tonight
Got satisfaction in my sights, woah
Party from one, two, three, four, five
Body on body coming alive
Rum in my hand all night, night, night
I'mma live the lie, love the lie
I'mma live the lie, love the lie[Bridge]

Good vibes only today

No cares, I'm running away
Can't nobody get a hold of me
Good vibes only from now
Won't let nothing bring me down
Can't nobody get a hold of me[Chorus]
Party from one, two, three, four, five
I won't be coming home tonight
Got satisfaction in my sights, woah
Party from one, two, three, four, five
Body on body coming alive
Rum in my hand all night, night, night
I'mma live the lie, love the lie (hey)
I'mma live the lie, love the lie (yeah)
I'mma live the lie, love the lie
