

# Candil de la Calle (Apparat Dub Mix)

## Apparat

Down in the blinding light  
It's getting cold  
I've been worn out by the night  
But I can't let go The sounds in my ears explain  
I've been here too long  
A freedom - hard to maintain  
I should be gone Long have I waited here  
For nothing to come  
A sequence of twisted turns  
That can't be undone  
They're paying your rent,  
They're feeding your kids But it's taking much more  
Than pleasing your needs Saw the water rising,  
On a beautiful day A flood only washing the ones away  
Who were lying in the sun And you're still where you begun  
Long have I waited here  
For nothing to come  
A sequence of twisted turns  
The can't be undone And you hurt yourself trying
