

Careless (feat. Chiild)

Daley

So much time, spent telling me lies
I was blind enough to believe
All the signs, led me into denial
Far from the reality There's no disguise, that could cover this up
You're reckless in the way you love
So it's time, now the damage is done
It's clear you never cared enough, so So, don't tell me things you don't mean in the night
Wake up the next day and tell me you lied
I'd never let myself do you that way
Play with your feelings then throw them away I guess I could if I was careless
If I was careless
I guess I could if I was careless
If I was careless (less)
So much time, spent telling me lies
I was blind enough to believe
All the signs, led me into denial
Far from the reality There's no disguise, that could cover this up
You're reckless in the way you love
So it's time, now the damage is done
It's clear you never cared enough, so So, don't tell me things you don't mean in the night
Wake up the next day and tell me you lied
I'd never let myself do you that way
Play with your feelings then throw them away I guess I could if I was careless
If I was careless
I guess I could if I was careless
If I was careless (less) Play with your feelings then throw them away
I guess I could if I was careless
If I was careless
I guess I could if I was careless
If I was careless (less)
