

# Bumble Bees

## Aqua

I know, I'm not the only flower you see  
But what can I do  
You are a good looking bee  
Wham bam thank you ma'am  
Bumble bee bump into me  
I am in for pollination  
Bumble bee take what you see  
I'm in need for your donation  
I can't wait for your invasion Be my love  
Cause, I'm a single flower feeling free  
Blooming now  
Take me honey, be my favorite bee  
Hey Rose, I'm ready again  
I've got my radar tuned in on you, baby  
I'm all set and ready to land  
I'm the bum here I come  
Getting ready for a wham bam Bumble bee bump into me  
I am in for pollination  
Bumble bee take what you see  
I'm in need for your donation  
You don't need no invitation Wham bam thank you mam  
I'm going wham bam thank you ma'am  
I'm a true believer that goes for what I see  
And one little flower  
Is not enough for a bee like me  
All I know is you're my honey  
And I can't say no  
Just a little bit shy  
And so excited when I see you fly Hey Rose, I'm ready again  
I've got my radar tuned in on you, baby  
I'm all set and ready to land  
I'm the bum here I come  
Getting ready for a wham bam Bumble bee bump into me  
I am in for pollination  
Bumble bee take what you see  
I'm in need for your donation  
You don't need no invitation Wham bam thank you mam  
I'm going wham bam thank you ma'am  
I'm a true believer that goes for what I see  
And one little flower is not enough for a bee  
No one little flower is not enough for a bee like me I know, I'm not the only flower you see  
But what can I do

You are a good looking bee  
Honey, it's a job it's a dream come true  
You're my favorite flower  
When I'm intimate with you Wham bam thank you mam  
I'm going wham bam thank you ma'am  
I'm going wham bam thank you ma'am  
I'm a true believer that goes for what I see  
And one little flower is not enough for a bee Going wham bam, thank you ma'am  
I'm going wham bam, thank you ma'am  
I'm a true believer that goes for what I see  
And you, my flower ain't enough for me You got to be faithful  
It's not fair for a bee  
You got to be faithful  
It's not fair for a bee like me
