

Can't Let Go (feat. Emilia Ali)

Valntn

Stick around just like cigarette smoke
Like a dream i fell asleep but i never woke
They say you bad but i just can't let go
You get me high like cocaine make my heart race
You got me hooked so i can need you more the next day
I know your there but i just can't let go
Got me addicted my head and heart conflicted
First you get my high then you see that i'm mistress
I know your there but i just can't let me go
(Can't let go)
(But I just can't let go)x2
When i feel down you take me to a good place
You touch me right i close my eyes and we just fly away
I know your bad but i just can't let go
Our ways go back everytime you come around
I know as soon as you leave i hit the ground
I know your there but i just can't let you go
Got me addicted my head and heart conflicted
First you get me high then you see that i'm mistress
I know you bad but i just can't
Can't let go
(Can't let you go) x4
(End)
