Cold Spot

Kane Brown

A cement building
White cinderblocks
And faded red lips
The sign read cold spot
He worked behind the counter
To them he was an old man
When my world was crumbling

My grandpa gave me his handIt was crickets, minnows and kerosene

RC, moon pies and a softball team

Learned about life Learned about girls

Learned about livin' in this cold, cruel world It's where you bought your tag for your white-tailed deer Where the southern baptist bought the most beer

A hole in the wall with holes in the wall From behind this counter you saw it all

At the cold spot

It was cool in July warm in December
If I live a hundred years

I'll always remember

The song and the hum of the ceiling fan

And his north Georgia voice saying, "Buddy you can"

Out here I'm just a kid trying to make a name

I am who I am because he raised Kane sellingCrickets, minnows and kerosene

RC, moon pies and a softball team

Learned about life

Learned about girls

Learned about livin' in this cold, cruel world It's where you bought your tag for your white-tailed deer Where the southern baptist bought the most beer

A hole in the wall with holes in the wall

From behind this counter you saw it all

At the cold spot

Oh yeah

At the cold spot

It was crickets, minnows and kerosene

RC, moon pies and a softball team

Learned about life

Learned about girls

Learned about livin' in this cold, cruel world It was heaven on earth when my world was hell And the big stores came and the business failed But all my memories are alive and well

At the cold spot

Oh yeah

At the cold spot

Take me back to the cold spot
