

# Take It Easy

## Surfaces

Oh, when you need a hand  
I will be your friend  
Oh, when you need a hand Oh, I will be your friend Take it easy, yeah  
Make yourself feel right at home  
Never leave me, yeah  
You don't have to feel alone, yeah oh-oh I will slip off your shoes and find your feet  
Let everything come naturally  
Oh, loosen the grip of what you need  
Home is a state of mind, you'll see  
I know you've been searching for better days  
So somehow I hope you'll hear me say  
Take it easy, yeah  
Make yourself feel right at home  
Never leave me, yeah  
You don't have to feel alone, yeah oh-oh Oh, no surprise, just open your eyes  
Come right in take off your disguise  
Leave your worries right at the door  
Watch them as they drop to the floor  
Oh, I wouldn't (Yeah) have it any other way  
I left the room for better days  
Your life is sweet like Minute Maid  
You shouldn't (Mmm)  
Feel the need to lose your faith  
The seasons come and go and change  
I just hope you hear me say  
Take it easy, yeah  
Make yourself feel right at home  
Never leave me, yeah  
You don't have to feel alone, yeah oh-oh Take it easy, yeah  
Make yourself feel right at home  
Never leave me, yeah  
You don't have to feel alone, yeah oh-oh
