

Hero

The Asteroids Galaxy Tour

Hey hero what you do
aint gon wait one heart on you
again and again

Hey hero who are you
Aint got no hit aint got no clue
now give up your name
let us down
dont let us down
Gone find a way
Gone find a way
without you

Though were not the same
No Never the same
without you
oohhh

Where are you my friend so true
How come my love gone make you blue
I saw it today

Tell us all your point of view
tell us a thing we'd never knew
please tell right a way
just tell us now
Dont take us down
Gone find a way
Gone find a way
without you

Though were not the same
No Never the same
without you

Hey hero what you do?
ooh

What you do
mmmm
