

Hero

The Asteroids Galaxy Tour

Hey hero what you do
aint gon wait one heart on you
again and again

Hey hero who are you
Aint got no hit aint got no clue
now give up your name
let us down

dont let us down

Gone find a way

Gone find a way

without you

Though were not the same

No Never the same

without you

oohhh

Where are you my friend so true

How come my love gone make you blue

I saw it today

Tell us all your point of view

tell us a thing we'd never knew

please tell right a way

just tell us now

Dont take us down

Gone find a way

Gone find a way

without you

Though were not the same

No Never the same

without you

Hey hero what you do?

ooh

What you do

mmmm
