

# Hero

## The Asteroids Galaxy Tour

Hey hero what you do  
aint gon wait one heart on you  
again and again

Hey hero who are you  
Aint got no hit aint got no clue  
now give up your name  
let us down  
dont let us down  
Gone find a way  
Gone find a way  
without you

Though were not the same  
No Never the same  
without you  
oohhh

Where are you my friend so true  
How come my love gone make you blue

I saw it today  
Tell us all your point of view  
tell us a thing we'd never knew  
please tell right a way  
just tell us now  
Dont take us down  
Gone find a way  
Gone find a way  
without you

Though were not the same  
No Never the same  
without you

Hey hero what you do?  
ooh

What you do  
mmmm
