

Fools

Rachel Stevens

It'll be O.K. with the next one
I always end on a leash up having no fun
Yeah, I'm always stuck
Feel like getting up now
Make it understood, crazy
And it means getting down I'm so tired and bored
Of the Mr. Nice Guy
Treats me well, but "stiff"
If the word on my mind So send me in the fools
Throw away the heros
I need some excitement here tonight
Send me in the fools
I'm startin' up the party
I make wakin' up want to feel the vibe
What I need is something
That's not against the law
It just fit in space and
Baby I'm bored,
I'm bored of feelin'
That safe, easy touch
Need a man to get my
engine started up Don't change - too lame,
That don't make my kind of man
Find a wild side somewhere
And maybe we can So send me in the fools
Throw away the heros
I need some excitement here tonight
Send me in the fools
I'm startin' up the party
I make wakin' up want to feel the vibe
Get me off this one way road
I'm goin' down
All I feel like now is
Heaven's so far So send me in the fools
Throw away the heros
I need some excitement here tonight
Send me in the fools
I'm startin' up the party
I make wakin' up want to feel the vibe So send me in the fools
Throw away the heros
I need some excitement here tonight
Send me in the fools

I'm startin' up the party
I make wakin' up want to feel the vibeSo send me in the fools
Throw away the heros
I need some excitement here tonight
Send me in the fools
I'm startin' up the party
I make wakin' up want to feel the vibe
