Fools

Rachel Stevens

It'll be O.K. with the next one I always end on a leash up having no fun Yeah, I'm always stuck Feel like getting up now Make it understood, crazy And it means getting downI'm so tired and bored Of the Mr. Nice Guy Treats me well, but "stiff" If the word on my mindSo send me in the fools Throw away the heros I need some excitement here tonight Send me in the fools I'm startin' up the party I make wakin' up want to feel the vibe What I need is something That's not against the law It just fit in space and Baby I'm bored, I'm bored of feelin' That safe, easy touch Need a man to get my engine started upDon't change - too lame, That don't make my kind of man Find a wild side somewhere And maybe we can So send me in the fools Throw away the heros I need some excitement here tonight Send me in the fools I'm startin' up the party I make wakin' up want to feel the vibe Get me off this one way road I'm goin' down All I feel like now is Heaven's so farSo send me in the fools Throw away the heros I need some excitement here tonight Send me in the fools I'm startin' up the party I make wakin' up want to feel the vibeSo send me in the fools Throw away the heros I need some excitement here tonight Send me in the fools

I'm startin' up the party I make wakin' up want to feel the vibeSo send me in the fools Throw away the heros I need some excitement here tonight Send me in the fools I'm startin' up the party I make wakin' up want to feel the vibe Song Discussions is protected by U.S. Patent 9401941.
