

My Favourite Man

Irina Rimes

My favorite man, left long ago
But he left his clothes and everything by the door
I didn't touch them, I just stared at them all day long
No one even come, and taken them away from home
My favourite man left long ago
My favourite man left long ago
My favourite man left long ago
'Cause it's all that is left
Of my beautiful man
I don't want to forget him
I don't even know if I can
I don't know if I can
When my memories are sinked
Cause my favourite man
Cause my favourite man has run away
My favourite man left long ago
Baby I don't want you back
But I miss you like hell
And I miss more the love that we had
The man that you are now I don't understand
But but I really, really would like to see once again
My favourite man left long ago
My favourite man left long ago
My favourite man left long ago
My favourite man left long ago
