

# She's a Star

James

Whenever she's feeling empty  
Whenever she's feeling insecure  
Whenever her face is frozen  
Unable to fake it anymore Her shadow is always with her  
Her shadow could always keep her small  
So frightened that he won't love her  
She builds up a wall Oh no, she knows where to hide in the dark  
Oh no, she's nowhere to hide in the dark  
She's a star  
She's a star  
She's been in disguise forever  
She's tried to disguise her stellar views  
Much brighter than all this static  
Now she's coming through Oh no, she knows where to hide in the dark  
Oh no, she's nowhere to hide in the dark  
She's a star  
She's a star Don't tell her to turn down  
Put on your shades if you can't see  
Don't tell her to turn down  
Turn up the flame  
She's a star  
She's a star  
It's a long road  
It's a great cause  
It's a long road  
It's a good call You got it  
You got it  
She's a Star
