

# Nothing Left To Say

Ian Van Dahl

I can't change  
The way we live today  
It's just a matter of exceptance anyway  
I can't change  
The pain we have to face  
All our worries in time will fade away In time will fade away (repeats) I can't change  
How people think today  
Maybe it's better  
There's nothing left to say  
I don't care  
How people think today  
Maybe it's better  
There's nothing left to say  
There's nothing left to say (repeats) I don't care  
About the way we live today  
I'm just a part of the game we have to play  
I don't care  
What people have to say  
All our worries in time will fade away  
I can't change  
How people think today  
Maybe it's better  
There's nothing left to say  
I don't care  
How people think today  
Maybe it's better  
There's nothing left to say There's nothing left to say (repeats)
