

Hate Love

La Muerte

The sun won't shine anymore
The light won't glow anymore
You may come and you may go
The sun may shine the wind may blow
I never thought it could be so cold
In the sunshine of MexicoHate Love
Hate Love
Hate Love
Hate LoveGot no more places I want to go
No more words to let you know
Since that day you left me so low
For the sunshine of Mexico
I never thought it could be so cold
In the sunshine of MexicoHate Love
Hate Love
Hate Love
Hate LoveThe sun won't shine anymore
The light won't glow anymore
Since that day you left me so low
For the sunshine of Mexico
You may come and you may go
The sun may shine the wind may blow
I never thought it could be so cold
In the sunshine of Mexico
Hate Love
Hate Love
Hate Love
Hate Love
