

# Danger Line

## Avenged Sevenfold

My 16 locked and loaded  
All fear has been avoided  
You say the words and my weapon is drawn  
This one could be my last time Some people call it war crime  
I may be staring down a lethal sight... to die  
Nothing shocks you like a bullet hole  
Leaving my fear on the danger line Suffering a man should never know  
Leaving my faith on the danger line  
I do this for my family  
My daughter loves her daddy  
Too many talk down on things they don't know  
With colors never faded, reckless and unabated  
They may take me but never take us all (I'll crawl)  
Nothing shocks you like a bullet hole Leaving my fear on the danger line  
Suffering a man should never know  
Leaving my faith on the danger line I know what you're thinking, I've been there before  
So think of the times, the time we spent laughing away  
So think of the times at home (life without a care)  
Now I find myself in my own blood  
(Never thought I'd lie in my own blood)  
The damage done is far beyond repair  
I never put my faith in up above  
(Never had much faith in up above)  
But now, I'm hoping someone's there  
I never meant to leave this world alone  
I never meant to hurt the ones who cared  
And all this time I thought we'd just grow old  
You know, no one said it's fair  
Tell my baby girl that it's alright, I've sung my last song today  
Remind the lord to leave his light on, for me... I'm free
