

# Making the Most of the Night

Carly Rae Jepsen

You and me  
We've been hanging around for the longest time  
I know when you're down  
Know what you need to get you high  
Top down  
Like the wind through your hair on a summer's night  
Outside  
All of your fears, leaving them behindBaby I'm speeding  
And red lights I'll run  
What I got you need it  
And I'll run to your side when your heart is bleeding  
I'm coming to getcha, to getcha, to getcha  
I know you've had a rough time  
But here I come to hijack you, hijack you  
I'll love you while making the most of the night  
I know you've had a rough time  
But here I come, I'ma hijack you, hijack you  
I'll love you while making the most of the night  
I know you've had a rough time  
Here I've come to hijack you, hijack you  
I'll love you while making the most of the night  
I know you've had a rough time  
But here I come, I'ma hijack you, hijack you  
I'll love you while making the most of the nightYour eyes wide  
Like you've never seen the ocean, never seen the tides  
No hope  
Now you're seeing things that you'd lost sight of  
Taking off  
Got your hands in the air and you feeling alright  
Gold mines glisten in the skin for you and I  
Baby I'm speeding  
And red lights are run  
What I got you need it  
And I'll run to your side when your heart is bleeding  
I'm coming to getcha, to getcha, to getchaI know you've had a rough time  
But here I come to hijack you, hijack you  
I'll love you while making the most of the night  
I know you've had a rough time  
But here I come, I'ma hijack you, hijack you  
I'll love you while making the most of the night  
I know you've had a rough time  
Here I've come to hijack you, hijack you

I'll love you while making the most of the night  
I know you've had a rough time  
But here I come, I'ma hijack you, hijack you  
I'll love you while making the most of the night Now baby take my hands, now don't you cry  
I won't let you stay here, I won't let you hide  
No more tears, don't waste another day  
Another day  
Go on and fight, don't lay down to die  
Come on get up, you'll make it through okay?  
Come on get up, don't waste another day I know you've had a rough time  
But here I come to hijack you, hijack you  
I'll love you while making the most of the night  
I know you've had a rough time  
But here I come, I'ma hijack you, hijack you  
I'll love you while making the most of the night  
I know you've had a rough time  
Here I've come to hijack you, hijack you  
I'll love you while making the most of the night  
I know you've had a rough time  
But here I come, I'ma hijack you, hijack you  
I'll love you while making the most of the night Making the most of the night  
Making the most of the night
