

# Unavailable

## Russ

I think you're unavailable  
Because I'm unavailable  
Which makes us unavailable  
Yea it makes us unavailable  
Nah nah nah nah nah nah I'm always traveling  
She says I do her foul  
I tell her girl you know the rules so why you stepping out of bounds  
You got me hot  
Go cool off  
We ain't together  
So move on  
You been taking shots they don't get thru I'm Luigi buffon  
You know my house is on the road  
That mouth got you exposed  
You should stay in school and study  
You should catch your words you're throwed  
Don't come home for me  
No  
Don't come home for me  
I think you're unavailable  
Because I'm unavailable  
Which makes us unavailable  
Yea it makes us unavailable  
Nah nah nah nah nah nah I've been hurt  
I've been tossed aside  
My door was open  
Now I'm locked inside  
My ex's always covered up  
Like they were Saudi  
From Lebanon to Maui  
If you understood my life  
You wouldn't overstep your boundary  
Hold up woah  
Please back up  
I got issues with my trust  
Dated prostitutes and riders  
Guess I like my women rough  
But I'm too gone for you  
Too on for you  
I think you're unavailable  
Because I'm unavailable  
Which makes us unavailable

Yea it makes us unavailable  
Nah nah nah nah nah nah
