You Can Burn (feat. Breese)

Donell Jones

Baby what you want, things ain't the same no more I done closed the door cause I don't want you Had your turn Lesson learned Left me hurt Now it's your turn You can burn You can pack your stuff cause you know I caught you But you won't leave with much I'm gonna keep what I bought you Had your turn Lesson learned Left me hurt Now it's your turn You can burn Boy I'm finished gotta end this I'm in control Ain't no comin' back baby there goes the door Had your turn Lesson learned Left me hurt Now it's your turn You can burn Man it feels so good to see that you're lonely Cause I was faithful baby you were the only Had your turn Lesson learned Left me hurt Now it's your turn You can burn You done caught the vapors baby nothing can save ya Acting like you did nothing wrong here's your walking papers Had your turn Lesson learned Left me hurt Now it's your turn You can burn Boy I'm finished gotta end this I'm in control Ain't no comin' back baby there goes the door Had your turn Lesson learned Left me hurt Now it's your turn You can burn

You burning up you burning up you burning up You played the game and you lost You burning up you burning up you burning up Left me cold so I won't cool you off Had your turn Lesson learned Left me hurt Now it's your turn You can burn You can't have this love Because you didn't know how to treat it right Need a guy that I can trust Keep it moving cause it's over Said I'm giving up Don't need a little boy need a man in my life This is a new beginning but for you this is where it ends Boy I'm finished gotta end this I'm in control Ain't no comin' back baby there goes the door Had your turn Lesson learned Left me hurt Now it's your turn You can burn Boy I'm finished gotta end this I'm in control Ain't no comin' back baby there goes the door Had your turn Lesson learned Left me hurt Now it's your turn You can burn
