

Pumpkin

Islands

Hold out your hand and take what you can.
If you've got a feeling that this feeling might fade away...
All you have to do is lay this love to waste.
Do what I say
Oh I can change ... Your ways.
If feels like it was planned and there's something sinister about a man with his head in the sand.
You really shouldn't make such assumptions, Pumpkin.
So hold out your hand and take what you can.
