

Big Moon

Arthur Russell

Big moon
Don't let me down
Like they said that it would beBig moon
Up on the pole
Come and bring her back to meTwo years ago
In the cold and blowing snow
I never seen her before
But now her face is all I knowBig big big moon
Don't let me down
She might let you talk to meBig big big moon
Don't let me down
She might give you one more chance
Big moon
Don't let me down
Like they said that it would beBig moon
Up on the pole
Come and bring her back to meHeat in her face
She can't have a face like you
Moonlight it falls all over space
Heard you put the message throughBig big big moon
Don't let me down
She might let you talk to meBig big big moon
Don't let me down
She might give you one more chance
Big moon
Don't let me down
Like they said that it would beBig moon
Up on the pole
Come and bring her back to meTwo years ago
In the cold and blowing snow
I never seen her before
But now her face is all I knowBig big big moon
Don't let me down
She might let you talk to meBig big big moon
Don't let me down
She might give you one more chance
She might give you one more chance
