

All We Ever Find

Tim McGraw

Say exactly how you feel
Right now your free to say it all
There is no one here to judge you
I only love you
You're free to close your eyes and fall
You can trust me this is real
Say exactly how you feel C H O U R S
Tell me all your dreams
What you think love means
We'll lock the world outside
Embrace the gift of time
Promising forever
Knowing that this moment might be
All we ever find
Every breath of who you are
Tells a story that I love
I have finally found the truth in what I see in you
And what I feel with every touch
The simple beauty of your heart
In every breath of who you are Tell me all your dreams
What you think love means
We'll lock the world outside
Embrace the gift of time
Promising forever
Knowing that this moment might be
All we ever find
Tell me all your dreams
What you think love means
We'll lock the world outside
Embrace the gift of time
Promising forever
Knowing that this moment might be
All we ever find Promising forever
Knowing that this moment might be
All we ever find
