

Ginger (Alt Version)

Riton & Kah-Lo

[Chorus]

Who has the ginger?[Verse 1]

I woke up one day and planned to get reckless

Felt myself and put on my best necklace

Posted in the group chat, who wants to faaji?

They were only down for the after party

Hmmn, my body is ready

And it's sweeting me like I have jedi jedi

Who else would be hype? Who has the ginger?

Only this guy that I know through my sister

So I hit him up and told him let's roll

And he told me he'll pioneer the parole

Now it's a movement

The night can't waste

So I got some henny out the stash for a taste

Went out for pre-drinks, squad was chill

But as the time passed, shit got real

I mentioned the movement they said they'll come through

Now them too were ready to do the do

[Bridge]

The whole squad turnt and the music is flames

And we don't even know anybody here's names

Can't even front, I have no ragrets

Lowkey one of my best nights yet

Oooh I'm on a big wave

Everyone around me prolly feels same

Nothing can phase me now[Chorus]

Who has the ginger?

Who has the ginger?

[Verse 2]

Dzammnn

What am I gonna do

I only have a three man crew plus two

A crew regardless, oya let's move

We can find a spot in the city for the groove

Get to the zone and bredda it's lit

Never seen a crowd get wild like this

The babes don't care and the guys are fit

Reckless mission is now accomplished[Bridge]

The whole squad turnt and the music is flames

And we don't even know anybody here's names

Can't even front, I have no ragrets

Lowkey one of my best nights yet
Oooh I'm on a big wave
Everyone around me prolly feels same
Nothing can phase me now[Chorus]
Who has the ginger?
Who has the ginger? (Dzammnn)
Who has the ginger?
Who has the ginger? (Dzammnn)
