## **Blood**

## **Breaking Benjamin**

Every endless word I have nothing here Sick of all that was Tired of all that is Every hated love I am broken in Sick of fucking up Tired of falling inAnd all that I regret I have before and will again It's over now (Are you running away?) I come apart (As I lay awake!) It's in my blood (Let the sky fall down!) I won't let go (My oblivion!)Counting every breath I am my own fear Nothing ever was Nothing ever is Every halo lost I am worn within Nothing left to harm Nothing left to live And all that I regret I have before and will againIt's over now (Are you running away?) I come apart (As I lay awake!) It's in my blood (Let the sky fall down!) I won't let go (My oblivion!)Face the monster I've become (And fight! I will not become!) In the ground we rise to burn (Maybe your life will let me love!) Forgive my heartIt's over now I come apartIt's in my blood (Let the sky fall down!) I won't let go (My oblivion!)
