

# Just a Cloud Away

Pharrell Williams

This rainy day is temporary  
The contrast is why we got 'em  
'Cause sunshine due is just a cloud away way way way way  
Way way way way way way (hey baby!) So what you blown a fuse (you blown a fuse)  
Well that happens to us all  
(that happens to us all)  
When I come with great news (I come with great news)  
The day could change (change) change (change) change (change) change (change) We all, of  
course, been there before  
Been there cryin, fightin  
But all that good energy be your strong  
Won't get away way way way way  
This rainy day is temporary  
The contrast is why we got 'em  
'Cause sunshine due is just a cloud away way way way way way way  
Way way way way way way (hey baby!) Well today the rock star (today the rock star)  
Feels like singing the blues  
(Feels like singing the blues)  
Don't abandon that song (Don't abandon that song)  
'Cause the tune could change (change) change (change) change (change)  
Change (change)  
We've all, of course, been there before Been there cryin, fightin  
But our gravity doesn't need the earth  
Slow balling change (change) change (change) change (change) change (change)  
This rainy day is temporary  
The contrast is why we got 'em  
'Cause sunshine due is just a cloud away way way way way way way  
Way way way way way way (hey baby!)  
Everything is cyclical What goes around us come back around baby  
Everything boomerangs  
What goes up  
must come down  
Love is won when it's close  
Humility will keep your feet on the ground  
So do your thing through the rain  
If you understand, won't you sing with me now?  
This rainy day is temporary  
The contrast is why we got 'em  
The sunshine due is just a cloud away way way way way way way  
Way way way way way way way way  
This rainy day is temporary  
the contrast is why we got 'em

The sunshine due is just a cloud away way way way way way  
way way way way way way
