

Oh! Starving

Car Seat Headrest

Goodbye, secret files
when I'm gone all this information will die
Goodbye, stupid smiles
when you're gone all anyone will do is cry I used to enjoy losing money, but now all I do is win
and now it's far too easy to be satisfied with things
I used to enjoy being worried, but now everything is fine
I wish I could go back to those unhappier times Cats crawl into gutters
just at the sight of me
You guys got mad skills
I just got mad I used to enjoy losing money, but now all I do is win
and now it's far too easy to be satisfied with things
I used to enjoy being worried, but now everything is fine
I wish I could go back to those unhappier times
Goodbye, all you secret files
when I'm gone all this information will die
Goodbye, all you airline miles
when I'm gone I won't have it in me to
