

# Seamless

## Sabrina Carpenter

Good morning, you're leaving  
I'll see you in the evening  
My best friend till the end, my better half, no pretend  
Our language is sacred, no people try to solve it  
New adventures on the way  
You and me together  
Take on the world forever I know all your secrets and I promise you I'm gonna keep them  
I'll be there when you are feeling clueless  
You and me, oh yeah we're seamless  
Woah oh, yeah, woah oh  
We're clutzy, but so lucky that I always have you to catch me  
We're partners in crime, you're stuck with me your whole life  
So different, out of our minds from a planet that's hard to find  
Every second, every day You and me together  
Take on the world forever  
I know all your secrets and I promise you I'm gonna keep them  
I'll be there when you are feeling clueless  
You and me, oh yeah we're seamless  
You're right by my side whenever I need you, through the hardest times I'll be there for you  
At the crack of dawn, when the moon is gone  
I won't be hard to find  
'Cause you and me, oh yeah we're seamless  
You and me together  
Take on the world forever  
I know all your secrets and I promise you I'm gonna keep them  
I'll be there when you are feeling clueless  
You and me, oh yeah we're seamless  
Woah oh, woah oh
