

# Fade Away

## Twin Peaks

You can do it  
It's all the same  
Your eyes are big  
You're counting the days No matter what time is  
I'm out of reach  
But for me you can be smoking weed It's right here in my hand  
Trying to reach for my knees  
You know by yourself  
Waking up and wishing you were somebody else  
Amazing dream about '  
We aren't joking around  
I thought we were friends  
We weren't so close  
But we didn't have to fade away
