

# Rain On Me

ZOX

let the color all drain out  
won't you draw the curtains down on me?  
silence never spoke so loud  
it's what i need  
so let me be  
with my disease and i said  
please don't let it rain on me  
because i realize i can't rely on you for what i need  
yea I said  
please don't let it rain on me  
cause i ain't got no shelter from this storm  
on market street cars all stand still  
this city is so beautiful tonight  
i'll drink you up to get my fill  
but i don't believe  
it's come to these  
so naturally and i said  
please don't let it rain on me  
because i realize i can't rely on you for what i need  
yea I said  
please don't let it rain on me  
cause i ain't got no shelter from this storm  
into this mind and body i was born  
and i realize by know that i have lost control  
but i'll be okay  
i know i'll be okay
