

Let Me Down Gently

La Roux

Let me down gently
That's what I think I need
But when you let me down gently
It still feels it hard, hard
Turn me into someone good
That's what I really need
Tel me that I'm someone good
So we're not so far apart, apart
I hope it doesn't seem like I'm young, foolish and green
Let me in for a minute
You're not my life but I want you in it
Set me up I'm slowly
That's what you do to me
Oh you set me up slowly
Now I can't come down, down
Let me down gently
That's what I think you need
But when I let you down gently
And you try to hide your frowns, frowns
I hope it doesn't seem like I'm young, foolish and green
Let me in for a minute
You're not my life but I want you in it And I hope it's sinking
Left behind your perfect skin
There's a part of you that's free
And I know there's a place for me
Let me down gently
That's what I think I need
But when you let me down gently
It still feels it hard, hard
Turn me into someone good
That's what I really need
Tel me that I'm someone good
So we're not so far apart, apart I hope it doesn't seem like I'm young and foolish and green
Let me in for a minute
You're not my life but I want you in it And I hope it's sinking
Left behind your perfect skin
There's a part of you that's free
And I know there's a place for me
