Dust in the Summer Rain (feat. Lilja Bloom)

Parov Stelar

This time you have to walk alone Don't call me, I blast my nasty phone I left the place that you go home I left the place that you go home Don't you know I died for you Like the dust in the summer rainSaid you none Said you noneDon't you know I died for you Like the dust in the summer rainDon't you know I cried for you Like a boy, like the fallen crane Don't you know I died for you Like the dust in the summer raindon't you know i fight for you like the flame?Said you none Said you noneDon't you know I died for you Like the dust in the summer rainDon't you know I cried for you Like a boy, like a fallen craneDon't you know I died for you Like the dust in the summer rainDon't you know I cried for you Like a boy like a fallen craneDon't you know I died for you Like the dust in the summer rain don't you know i fight for you like the flame?Said you noneDon't you know i died for you Like the dust in the summer rain
