

Energy (feat. Sabrina Claudio)

BURNS & A\$AP Rocky

How do I know it's real?
Barely keep my composure
Love me with no disclosure Tell 'em all how you feel (Uh) Notice this
Electric charges flowin' through your fingertips
When your hands on my thighs Do you feel this energy when I'm near you?
Do you?
Do you?
Do you? Oh, it's not just me
Don't deny all this energy
Oh, it's not just me
Undeniably, wait and see
Oh, the pressure
Between us is kinetic when you move closer
And I can't get enough Do you feel this energy when I'm near you?
Do you?
Do you? Oh, it's not just me
Don't deny all this energy
Oh, it's not just me
Undeniably, wait and see How do I know it's real?
Barely keep my composure
Tell me she comin' over
Now I know how it feels
How do I know it's real?
Barely keep my composure
Love me with no disclosure
Tell 'em all how you feel (Uh)
Energy undeniable
Chemistry so reliable
Memories reifiable
Match lit, don't forget the lighter fluid
I just pray my heart is fireproof
Got thick skin 'cause it's bulletproof
And you sendin' shots 'cause you vulnerable
Like I'm tired of fightin', shit, let's call a truce
I'm just tryna get back on your good side
Stay on the right path full time
Watch for the camera now, big smiles
Bad boys wanna have a good time
Plans made in advance
Let's make some babies, that makes us parents
Nah, I'm just playin', ain't it apparent?
Make no mistake, I'd impregnate if I had the chance Oh, it's not just me

Don't deny all this energy
Oh, it's not just me
Undeniably, wait and seeHow do I know it's real?
Barely keep my composure
Tell me she comin' over
Now I know how it feels
How do I know it's real?
Barely keep my composure
Love me with no disclosure
Tell 'em all how you feel (Uh)Oh, it's not just me
Don't deny all this energy
Oh, it's not just me
Undeniably, wait and see
