

# James

## Camera Obscura

James, he came to my place  
He said he had to see my face  
He hopes that we can still be friends  
In his own way, he'll love me til the end  
And, James, he came to the door  
Wanting to know for sure  
Why love gets up and goes  
I'm sorry, but it had no place to grow  
Oh, James. My love for you is stronger, don't you know?  
I'd like to celebrate you, dear  
All in all, it's been a pretty good year  
I looked deep within myself  
I got scared by just how hard I fell  
Oh, James. You broke me, I thought I knew you well.  
Oh, you had me  
Honey and me, oh, sun and the moon  
I'll be fine by June  
I could tell that you weren't well  
Oh, James. You broke me, I thought I knew you well  
Oh, can't you see you belong with me?  
I could tell that you weren't well  
Oh, James. You broke me, I thought I knew you well
