I just got back from where they said I couldn't get back from
And I thank god, I thank god that I made it
They surprised, they surprised that I made it
Heart is like diamond keep blindin' their faces
I wonder how I keep finding these places
I can't explain how it feels to be patient
Killing the drama, we finally made it
Yeah, yeah, yeah, yeah ,yeah, yeah, yeah, yeah, yeah ,yeah
Nobody knows, nobody knows, nobody knows, nobody but you
Yeah, yeah, yeah, yeah ,yeah, yeah, yeah, yeah, yeah ,yeah
Nobody knows, nobody knows, nobody knows, nobody but you
I got something inside of me that can't be quenched
I'm addicted to winning and I can't be benched
Go to war for every black queen that they lynched
And my pockets on chubby but they can't be pinched
After they use you, then they abuse you
Then they get mad when they lose you
(Excuse you)
You know the liar will accuse you
You know the queen still reign, it's just business as usual
Anything I touch, I bless it
Track record so impressive
Open the Billboard Awards with a hit record
The devil thought he had me
But I rebuked him, got money and I'm still a baddie
I just got back from where they said I couldn't get back from
And I thank god, I thank god that I made it
They surprised, they surprised that I made it
Heart is like diamonds, keep blinding they faces
I wonder how I keep finding these places
I can explain how it feels to be patient
Killing the drama, we finally made it
Yeah, yeah, yeah, yeah ,yeah, yeah, yeah, yeah, yeah ,yeah
Nobody knows, nobody knows, nobody knows, nobody but you
Yeah, yeah, yeah, yeah ,yeah, yeah, yeah, yeah, yeah ,yeah
Nobody knows, nobody knows, nobody knows, nobody but you
Say nobody knows, all the trouble I see
Glory, looking for some glory, from all the trouble I see
Tell em' nobody knows, all my sorrows

Nobody knows, war tomorrow
I just got back from where they said I couldn't get back from
And I thank god, I thank god that I made it
They surprised, they surprised that I made it
Heart is like diamonds, keep blinding they faces
I wonder how I keep finding these places
I can explain how it feels to be patient
Killing the drama, we finally made it
Yeah, yeah, yeah, yeah ,yeah, yeah, yeah, yeah, yeah ,yeah
Nobody knows, nobody knows, nobody knows, nobody but you
Yeah, yeah, yeah, yeah ,yeah, yeah, yeah, yeah, yeah ,yeah
Nobody knows, nobody knows, nobody knows, nobody but you
Baby
Can you feel it?
Can you see it?
