I just got back from where they said I couldn't get back from  
And I thank god, I thank god that I made it  
They surprised, they surprised that I made it  
Heart is like diamond keep blindin' their faces  
I wonder how I keep finding these places  
I can't explain how it feels to be patient  
Killing the drama, we finally made it  
Yeah, yeah, yeah, yeah ,yeah, yeah, yeah, yeah, yeah ,yeah  
Nobody knows, nobody knows, nobody knows, nobody but you  
Yeah, yeah, yeah, yeah ,yeah, yeah, yeah, yeah, yeah ,yeah  
Nobody knows, nobody knows, nobody knows, nobody but you  
I got something inside of me that can't be quenched  
I'm addicted to winning and I can't be benched  
Go to war for every black queen that they lynched  
And my pockets on chubby but they can't be pinched  
After they use you, then they abuse you  
Then they get mad when they lose you  
(Excuse you)  
You know the liar will accuse you  
You know the queen still reign, it's just business as usual  
Anything I touch, I bless it  
Track record so impressive  
Open the Billboard Awards with a hit record  
The devil thought he had me  
But I rebuked him, got money and I'm still a baddie  
I just got back from where they said I couldn't get back from  
And I thank god, I thank god that I made it  
They surprised, they surprised that I made it  
Heart is like diamonds, keep blinding they faces  
I wonder how I keep finding these places  
I can explain how it feels to be patient  
Killing the drama, we finally made it  
Yeah, yeah, yeah, yeah ,yeah, yeah, yeah, yeah, yeah ,yeah  
Nobody knows, nobody knows, nobody knows, nobody but you  
Yeah, yeah, yeah, yeah ,yeah, yeah, yeah, yeah, yeah ,yeah  
Nobody knows, nobody knows, nobody knows, nobody but you  
Say nobody knows, all the trouble I see  
Glory, looking for some glory, from all the trouble I see  
Tell em' nobody knows, all my sorrows

Nobody knows, war tomorrow  
I just got back from where they said I couldn't get back from  
And I thank god, I thank god that I made it  
They surprised, they surprised that I made it  
Heart is like diamonds, keep blinding they faces  
I wonder how I keep finding these places  
I can explain how it feels to be patient  
Killing the drama, we finally made it  
Yeah, yeah, yeah, yeah ,yeah, yeah, yeah, yeah, yeah ,yeah  
Nobody knows, nobody knows, nobody knows, nobody but you  
Yeah, yeah, yeah, yeah ,yeah, yeah, yeah, yeah, yeah ,yeah  
Nobody knows, nobody knows, nobody knows, nobody but you  
Baby  
Can you feel it?  
Can you see it?
