

# Little Heartbreaker

Marty Stuart

Well, you ain't nothin' but a little heartbreaker  
A tiny little teardrop, mover and a shaker  
I swear by the moon and stars above you.  
You got me wrapped around your pretty little finger  
My heart is a bell, you know how to ring her  
So all of this to say 'Baby I love you.'  
Can't help myself when the sun goes down,  
Thinkin' 'bout you, go into town  
And askin' everybody I see if they've seen you  
Well, you bring me, then you turn me down  
And run me around and around and around  
My heart ain't ever seen the likes of you.  
Well, you ain't nothin' but a little heartbreaker  
A tiny little teardrop, mover and a shaker  
I swear by the moon and stars above you.  
You got me wrapped around your pretty little finger  
My heart is a bell, you know how to ring her  
So all of this to say 'Baby I love you.'  
Gonna call ole Moon, get a little unwound  
Go to Mississippi then a Texas town  
Play a little country music along the way  
Gotta get away from you coz you break my mind  
Baby, I'm gone for good this time.  
And adios is all there is to say  
You ain't nothin' but a little heartbreaker  
A tiny little teardrop, mover and a shaker  
I swear by the moon and stars above you.  
You got me wrapped around your pretty little finger  
My heart is a bell, you know how to ring her  
So all of this to say 'Baby I love you.'
