Take Back Home Girl (feat. Tori Kelly)

[Chris Lane](#)

Duffle bag, backseat
My dash, your feet
Those other side of the highway headlights making you shine
My hand, your leg
Playlist playing
Even though I haven't made it yet
I'm dragging it, dropping it in my mindYou're a drive real slow, down a no lane road
To a house on a hill where the wild things grow
You're wake up in pajamas, not a trace of makeup on ya
You're a help her fix it, having breakfast with my momma
You're a take back home, home, home girl
Home, home, home girl
Take back home, home, home girl
Home, home, home girl
You're the kind I wanna take a ride with
Sit by on a Friday night
In the stadium lights, side by side
All the ladies like, "Yeah, she's doing just fine"
Everybody in the bleachers, they all gon' want to meet ya
From my teachers to my preacher
My little crowd pleaser
Parading with you feeling homecoming cool, yeahI wanna drive real slow, down a no lane road
To a house on a hill where the wild things grow
You're wake up in pajamas, not a trace of makeup on ya
You're a help her fix it, having breakfast with my momma
You're a take back home, home, home girl
Home, home, home girl
Take back home, home, home girl
Home, home, home girl
You're a take back, you're a take back
You're a take back home girl
You're a take back home
You're a take back home girlYou got that down home, homegrown, found on good ground soul
That down home, home grown, found on good ground soulYou're a drive real slow, down a no lane road
To a house on a hill where the wild things grow
You're wake up in pajamas, not a trace of makeup on ya
You're a help her fix it, having breakfast with my momma
You're a take back home, home, home girl
Home, home, home girl
Take back home, home, home girl
Home, home, home girlYou're a take back, you're a take back

You're a take back home girl
You're a take back home, yeah
You're a take back home girl
You're a take back home
