

Come Gangsta

Tech N9ne

The spiked red hair and the, and the paint in his face
Whoa, hold on, man, Tech is losin' it, man
He's not as grounded as he used to be
Tech was a devil worshiper Now have you seen a black dude red hair, long beard
I mean look, he look scary to me too
Man, that ain't Tech man, he sellin' out, man
That's, that's, he's doin' that shit for the white folks
That's white shit he doin', man I've been writing for nineteen years for sure
Hate rules in these times, niggaz don't wanna see me shine
Stop me and then try to tell me, come gangsta
And then compare me to Nelly, where ya bang bra?
So this song's gonna tell me
So called gangsta niggaz who the fuck has always been the bigger G
Hey, I've been bustin' and fizz-knuckin' bitches
It is nothin' for years puffin', I've been clutchin' riches from his muffin'
Here's fuck you niggaz this is toughin' I
Don't know what the fuck you thinkin' tellin' me this shit is hella fake Say, since way back in the
days rappin' the blaze happen
I raised raves craves the days was blade packin' and stage saggin'
They's wackin' Nina stay laid back and I
Rap at niggaz constantly they never know the money Nina makes Hey, this is amazin' how
niggaz formulate they hatin'
You fuckin' fornicate your mistakin'
We can never correlate 'cause you fakin', huh?
Who's bringin' in through bacon, huh?
Who's keepin' this shakin', huh?
Got any questions Sinister Tech and Tecca Nina niggaz, know the rest
Gay, is all you punks and Mitch Bades
Diss in your trunk won't get played on the radio
Two gangsta for an old lady, bro
Gangsta niggaz don't hate me no, wanksta niggaz won't face me though
Talkin' shit and bunch my people tellin' me I really need a vest, okay I rep the town harder than
any of you niggaz
Wherever I stand my bills the same punk
And you got the nerve to tell me Come gangsta, throw your rags in the air
And know that nobody there will compare to your gangsta
Saggin' pants to the floor
Every woman's a bitch or a whore when you're a gangsta
Pack ya guns in the club if they shrug
And them thugs mean mug ya come gangsta
Is what they sayin' to me I shoulda been done come with a gun
For the ones who bump they gums who the one

Said a nigga wasn't gonna make another record
Said I was wack and washed up, done
Said a nigga might scare little ones
He's a fuckin' nightmare, here he comes
With red hair and my face painted
They say gangsta Messy Marvin, Colione is so gangsta
But I really ain't gangsta I need to come up wit a gangsta
Scratch the scratch on my nigga Fat Tone is so gangsta
You need a bit of that gangsta, you need to hang wit a gangsta
Mr. Stinky Vigilante so gangsta,
Brotha Lynch is gangsta
The Bigga Figga is gangsta, 57 RDVs are so gangsta
That nigga 50 is gangsta, they say
When you in them streets, creep, creep
'Cause some gangstas want a head blast 'cause I run with the red rags
And tryin' to make the Feds flash, try to swipe my bread stash
That's that bullshit I'm gon' skip and try to go and get the money grip
Okay, you niggaz kill me
in Nosferatu vampire bit my shit
'Cause you niggaz feel me, surprised I got you right here with my shit?
So you gotta be thankful to who?
By the way homie what's gangsta to you?
Money, dope and alcohol and plenty bitches all up on your dick
I got that
How can C-Bo be wrong?
How can Yukmouth be wrong?
How can Lynch be wrong?
How can 2Pac be wrong, bitch?
Come gangsta, throw your rags in the air
And know that nobody there will compare to your gangsta
Saggin' pants to the floor
Every woman's a bitch or a whore when you're gangsta
Pack ya guns in the club if they shrug
And them thugs mean mug ya come gangsta
Is what they sayin' to me
I've been nice to you rapper cats for a long time
I left Kansas City so them other cats can gon' shine
But it seems these punks are confused because I'm my own kind
But I'm back on deck 'cause Kansas City is who's throne? Mine
This ain't no punk shit, nigga
this is strength at it's finest
I made this shit so all you simps can rewind it
Meaning, you pussies who say this Tech shit ain't hard for real
And try to disregard the real, you mothafuckers is hard to feel
I get your death threats 'cause I'm
the King, bitch
Money, groupies, drugs and alcohol and bling shit
But I stay ahead of the game and you punks is so lame
'Cause my mobbin' gangsta track will demolish your whole team
I've been with every rapper
who's legendary
Underground to mainstream know that Tech is very hard
'Cause I bring the hater, love me 'cause I'm your leader
Bitches, they suck my peter, while I drinkin' margaritas
Niggaz get laid down, seven displayed
sounds
N9ne the Crazed Clown, lines like sprayed rounds
This is for all you haters who don't bump my shit
If you say this ain't gangsta you can suck my dick
I might look like a Clown, huh
But you niggaz sound like a mothafuckin' circus
Fuck you motherfuckers
This nigga is the tightest nigga movin' man

I mean, Tech N9ne will demolish all you niggaz
From the stage show, to rockin' the mic, you name it
That's why I roll wit him, he my favorite rapper, real talk, Tech N9ne.
