

How About You

George Duke

How about you
Will you see this through
How about you
Will you be strong, or am I wrong
Have I stayed too long
And sung the wrong song, oh, baby
Come home too late, put you in a state
That you can't see your way through
Oh, how about you
Will you even try not to deny that that is right
With us
Baby hold on, before it's gone, oh
How about you, baby
Do you say we're through
Oh, how about you
Have moved on, found a new song
Oh, how about you
Should we start anew
Won't you answer me please, I'm down on
My knees beggin' you
To make your move
Do you feel the same
Or am I insane, blinded by cold-hearted love
Is this a game, that both of us lose
Baby, please, please choose
How about you
Do you feel like I do
How about you
How about you
This tango's for two
Oh, how about you
Will you even try not to deny that
That is right with us
Or am I insane, blinded by cold-hearted love
Is this a game, that both of us lose
Come on, just choose
How about you, baby
I want to see this through
Now it's up to you, decide what you'll do
Before it's too late
