

Storm Away

Bobby Brown

Down!Verse 1:

Looking back on when i was a child
Not a care in the world
All i've learned, and all that i know now
Sometimes we go through pain
Please take us from the rain
How long must this world continue to be
Seems like no one even cares, yeah
Think about the children, and what they need
Help me find a way, yeah, to take the storm away, Yeah

Chorus:

Somebody take the storm away (3x)
Before it comes on down
(repeat)Bridge:

I know we've come too far
But we must live in a world full of love
I know, I know, I know I can
I know we can take the storm awaySax soloSomebody take the storm away(3x)

Down!

Spoken:

You know this world is in definite need for
a change we must ask ourselves.
Do we want all of our kids growing up into
a world of hate, a world of prejudice, a world of heartaches
a world of drugs and politics...
I don't think so. I think, everybody wants to see the same things happen.
We must come together, and live together,
in this worldchorus w/ Bobby's adlibs and fade
