

# Soundwave (Radio Edit)

## R3HAB & Trevor Guthrie

Come around, come around make a wall of thunder  
Be a spark in the dark, that tidal wave that's ignite  
Build it up now, waiting for the drop is the wonder (?)  
Oh, what a sound, weighing down on a beautiful sun...I need a soundwave, no slowing down,  
sing woah, woah  
Into the sunrays, no cooling down, sing woah  
Let's just keep going on (oooo oooo ooo ooo oo oo)  
Let's just keep goin' No comin' down, comin' down, keep the innovations  
Say hello to the crowd, our firebirds into the night  
Turn it up now, sending only good vibrations  
A whole wall of sound crushing down all around  
What a beautiful life  
I need a soundwave, no slowing down, sing woah, woah  
Into the sunrays, no cooling down, sing woah...  
Let's just keep going on (oooo oooo ooo ooo oo oo)  
Let's just keep goin.
