

# Zero Gravity (feat. Lights)

## Borgeous

Sometimes the sky is heavy  
It's coming down on me  
Sometimes I'm not ready  
You look at me the way nobody does  
Nothing can touch us, nothing is big enough  
And oh, it doesn't mean much and I feel so nice oh  
You got a sweet touch and it feels like  
And I don't care about nothing  
You lift me off my feet  
And when I feel you coming  
It's zero gravity  
It's zero gravity  
You lift me on his shoulders  
There are no borders, no maybes and no sures  
Just weightless, I've never felt this  
And I can't resist  
I can't, I can't resist  
And oh, you sit all off and it feels so nice and oh  
You got a sweet touch and it feels like  
And I don't care about nothing  
You lift me off my feet  
And when I feel you coming  
It's zero gravity  
It's zero gravity  
It's zero gravity  
It's zero gravity.
