

# Do You Love Me (feat. Mara Hruby)

## Big K.R.I.T.

Do you love me for real? Do you love me for real?  
Do you love me for real? Do you love me for real?  
(Said my car as I worked her wheel)  
Do you love me for real? Do you love me for real?  
Do you love me for real? Do you love me for real?  
(Said my car as I worked her wheel)On the boulevard, oh my Lord  
Her heels so high, she skipped the curb and ran in your yard  
She's so, super fly  
(?) linen inside  
This shit way too old, for me to drive  
But I really don't care  
She let me write her walls, in the pop up trunk  
Turn her out, give her thumb  
Cause she need it  
And she want it  
There's no denying how I feel  
Cause this love feels so real  
Do you love me for real? Do you love me for real?  
Do you love me for real? Do you love me for real?  
(Said my car as I worked her wheel)  
Do you love me for real? Do you love me for real?  
Do you love me for real? Do you love me for real?  
(Said my car as I worked her wheel)Oh the boulevard, she go hard  
No matter where and when, if I push her buttons she start  
So, out of site  
Shawty cold as ice  
Ain't no shame in her game, you just (?) her tight  
That ain't no lie at all  
She creep and crawl  
And without a (?) or a pause, I break her off  
Cause she need it and she want it  
Theres no denying how I feel  
Cause this love feels so real  
Do you love me for real? Do you love me for real?  
Do you love me for real? Do you love me for real?  
(Said my car as I worked her wheel)  
Do you love me for real? Do you love me for real?  
Do you love me for real? Do you love me for real?  
(Said my car as I worked her wheel)Never ever have I ever seen a girl like you before  
I love to hug onto your curves don't ever let me go  
Hold on tight, I'll run the light, the peddle to the floor  
And take us higher than we've ever been

(A place where no one goes)  
Lets go  
(A place where no one knows)  
Lets go Do you love me for real? Do you love me for real?  
Do you love me for real? Do you love me for real?  
(Said my car as I worked her wheel)  
Do you love me for real? Do you love me for real?  
Do you love me for real? Do you love me for real?  
(Said my car as I worked her wheel)
