

# Don't Turn Out the Lights

## NKOTBSB

I know we haven't been getting along long at all  
I don't think that it's time  
For you and I can give in, just call it off  
I don't wanna say goodbye 'Cause just when I think we're through  
The memories come flooding back  
It's like instantly I love you like that  
I was on fire for you, we could get it back again  
If you don't say it's the end, the end So don't turn out the lights now, lights now, lights now  
'Cause in a minute we'll be feeling like never before  
We'll light up the night now, night now, right now  
I'll be whatever you need and more So don't turn out the lights now  
Don't turn out the lights now  
I'ma give you a minute to clear, clear your head  
Take the rest of the night, yeah  
(Take your time)  
You're gonna see that it's empty without me in your bed  
Baby, you'll change your mind 'Cause just when I think we're through  
The memories come flooding back  
And instantly you love me like that  
I still got this fire for you, we can get it back again  
If you don't say it's the end, the end So don't turn out the lights now, lights now, lights  
now 'Cause in a minute we'll be feeling like never before  
We'll light up the night now, night now, right now  
I'll be whatever you need and more So don't turn out the lights now  
Don't turn out the lights now  
We're down to the wire  
(Let's get high, girl)  
We gotta let go and take a chance  
(Don't be afraid)  
I'll take it higher  
(Let us take you higher)  
'Til the end, 'til the end, 'til the end  
(NKOTBSB, baby) So don't turn out the lights now, lights now, lights now  
'Cause in a minute we'll be feeling like never before  
We'll light up the night now, night now, right now  
I'll be whatever you need and more So don't turn out the lights now, lights now, lights now  
'Cause in a minute we'll be feeling like never before  
We'll light up the night now, night now, right now  
I'll be whatever you need and more So don't turn out the lights now  
Don't turn out the lights now  
So don't turn out the lights now  
Don't turn out the lights now
