

# James

## MGMT

James  
If you heed the call  
And you go outside, and wander off  
Then home is there  
Wherever you will make it  
You can always say, "Who's laughing now?" James  
If you need a friend  
Come right over  
Don't even knock  
And I'll be home  
The door is always open  
And we both can say, "Who's laughing now?"  
Oh, James  
My little doll  
You just go outside and you call  
Oh, James  
Oh, you're never too far off Oh, James  
My little doll  
You just go outside and you call  
Oh, James  
No, you're never too far off If your fire's out  
There's no need to shout  
I'm always home  
And walk on in  
I'll make you tea and breakfast  
And we both can say, "Who's laughing now?"  
Oh, James  
Oh, James  
Oh, James  
No, you're never too far off (James)  
No, you're never too far off
