Bounce

(Uh, uh, uh)

(Uh, uh) Ryde with me now

Yeah

(Ha, ha)

Supafly, muthafucka

Yeah

(Uh, uh)

You know how fly I always look

I keep banging and I keep them off the hook

You know about my peeps and all the lady's I be with

The Blue and Blue Mercedes with the rims and kit You know about my house and carroners in
the fridge

And the ATL shorty this how a nigga live

Besides Cheapy, they call me Mr. Long

You can catch me in the streets in a all pink suit Leaning to the side, swinging my hair

Trunk full of ants, ain't no room for a spair

I got them big beast pumping with the ace and bag

And the white shelltoes with them mean they match You know me before the CD, it ain't
nothing but flossin'

If you allergic I suggest you turn this muthafucka off

'Cause I'm off the glissy, all I'm think about, talk about

Is Big Missy, new pissy, two damn tricky, I am

Call this pimping a game

If an old trick knows my name, man

(Supafly)

The Boss so cold

(Ha, ha, I am)

Call this pimping a game

If an old trick knows my name, man

(Supafly, muthafucka)

The Boss so cold Ho, so, glow, all that's rubbing on them 20's is the only way to roll

You know, about the G wag, how the pants at

How lady's all over the country want this nigga so bad

You know what I say be the truth not the agg Stretch cream belly with the partner back

You know it's just me and my niggaz and some lady's getting full

Crunk as hell drinking Belvedere and Red Bull You know about the bouncin' and the booty
shaking collar

Poppin' money, making city that I come from

You know about the player hating, baby, mama drama
'Cause, uhh, us players we all got some And it's I supafly seven days a week
The one that everybody want to when they warm that heat
'Cause I'm off the glissy, all I'm think about, talk about
Is Big Missy, new pissy, two damn tricky, I am Call this pimping a game
If an old trick knows my name, man
(Supafly)
The Boss so cold
(Ha, ha, I am)
Call this pimping a game
If an old trick knows my name, man
(Supafly, muthafucka)
The Boss so cold He's so cold (Supafly)
The Boss so cold
(Ha, ha, I am)
Man (Supafly, muthafucka)
