She Knows

Thin Lizzy

Who's got the funk When you're feeling low down Who's going to love you When there's no one else aroundWho's going to help you Especially when you're sick Mother Mary I need you quickShe knows and she gives her everything She knows and she can do her thing She knows and she tries her best She knows, oh, you know she knowsWho's got the junk When you're feeling low down Who's going to give When there's none to go around Who's going to help you When you feel you've had enough Mother Mary This time it's roughBut Mother Mary Do you feel the pain? I'm falling down And I can't get up againDo ya, do ya, do ya Do ya, do ya, do ya Just a slide guitar injectionWho's going to help you Especially when you're ill Loving Mary I hope you will But Mother Mary Do you feel the pain? I'm falling down And I can't get up againDo ya, do ya, do ya Do ya, do ya, do yaMother Mary, is there nothing you can do?
